SKILLS

• Languages: HTML, CSS, JavaScript, Java, C, C++

• Frameworks: Angular, React

• Tools/Platforms: MySQL, MongoDB, JDK, Express, NodeJS

Soft Skills: Problem-Solving Skills, Project Management, Adaptability

PROJECTS

• Banking Management System:

Jan 2025 - Feb 2025

- Designed and developed a comprehensive Banking Management System using Java Full Stack, enabling secure and efficient financial transaction management. Implemented key functionalities, including account creation, deposits, withdrawals, fund transfers, and transaction history tracking.
- Built the backend with Spring Boot, Integrated MySQL for secure data storage using Hibernate/JPA. s Developed a responsive frontend with React.js.
- · Tech: Java, Spring Boot, React.js, MySQL, REST API.
- GitHub: Project Link

Mern Stack Ecom Store:

Aug 2024 - Nov 2024

- Developed a full-featured e-commerce store using the MERN stack, delivering a seamless shopping experience with modern UI/UX. Implemented key functionalities such as product listing, filtering, user authentication, cart management, and secure checkout.
- · Integrated MongoDB for data storage, Express.js and Node.js for backend, and React frontend.
- · Optimized performance and security with JWT authentication, API validation.
- Tech: MongoDB, Express.js, React, Node.js (MERN).
- GitHub: Project Link

Kotlin Based Wallpaper App:

Apr 2024 – Jul 2024

- Developed a Kotlin-based Wallpaper app, providing users with a vast collection of high-quality wallpaper through a sleek and intuitive interface.
- Implemented features such as wallpaper browsing, category filtering, favorites management, and one-tap wallpaper setting.
- · Integrated API support to fetch dynamic and trending wallpapers, keeping the content fresh.
- · Tech: Kotlin, Android Jetpack, Glide/Picasso, REST API.
- GitHub: Project Link

• ToDo App:

Jan 2024 – Mar 2024

- Designed and developed a user-friendly cross-platform Todo app using React, aimed at streamlining task management.
- Built responsive and intuitive interfaces optimized for both web and mobile platforms, following modern UI/UX principles.
- · Implemented core features such as task creation, editing, deletion, and due-date management.
- Tech: React, JavaScript, HTML, CSS
- GitHub: Project Link

CERTIFICATIONS
